

Presentation 20: Meridian's Reuse Water and the Ten Mile Interchange area for Highway Irrigation

Abstract: The City of Meridian City's Class A Reclaimed Water Program is making strides to continue to lead the state in the use of reclaimed water. Meridian is using this permit to supply reclaimed water to the Ten Mile Interchange area for highway irrigation. Idaho Transportation Department requirements, landscaping, maintenance, storm water and access to the site will be discussed.

Speaker Name: Clint Dolsby, Assistant City Engineer
Organization: City of Meridian
Address: 33 E Broadway, Ste 200 Meridian, ID 83642
Phone: 208-898-5500

Professional Background: Clint Dolsby is the Assistant City Engineer for the City of Meridian. Clint holds a bachelors and masters degree in Civil Engineering and has worked in both the private and public sectors. Mr. Dolsby has thirteen years of experience in the management, design and construction of public works facilities. These facilities have included a range of collection system and wastewater treatment plant projects ranging from small lagoon/land application systems to large mechanical treatment plants. His primary responsibilities are focused on the collection and treatment of the City's municipal wastewater and the reclaimed water program.
