[Dorothy.sperry@portofportland.com](mailto:Dorothy.sperry@portofportland.com)

**Session Title: Port of Portland Headquarters and Long Term Parking Garage Living Machine**

**Abstract:**

Discussion on design, installation, regulatory coordination, permitting and ongoing operations for the Living Machine onsite wastewater treatment system at the Port of Portland Headquarters building

**Professional Background:**

**Daniel Gilkison**

Dan has a BS Civil & Environmental Engineering from Oregon State University. He has over 18 years professional experience in the Civil Engineering field, ranging from transportation related projects as well as commercial, industrial and residential developments. In addition, he has 11+ years at the Port of Portland, managing Civil Engineering group working on a variety of projects from Airfield Runway and Taxiway improvements, to Marine Terminal and Airport projects, including Long Term Parking Garage and Port Headquarters building.

**Dorothy Sperry**

Dorothy has a BS in Zoology from Montana State University and a MS in Environmental Engineering from University of Southern California. She has 30 years professional experience in water resource management and environmental-related work ranging from wildlife studies, environmental consulting, and managing environmental work on major transportation construction projects to managing environmental programs at the Port of Portland including administration of the Port's Environmental Management System (15 years with the Port of Portland).
