

Advancing Water Reuse in the Pacific Northwest

Water Reuse in the Pacific Northwest

WATER REUSE

Pacific Northwest

The logo features the words "WATER REUSE" in a bold, blue, sans-serif font. The letter "R" in "REUSE" is stylized, with its vertical stem extending downwards and curving to the right to form a large, green, infinity-like loop. A single green leaf is positioned to the left of the bottom of this loop. Below the loop, the words "Pacific Northwest" are written in a green, sans-serif font.

WaterReuse Association Sections

- Arizona
- California
- Colorado
- Florida
- Nevada
- Texas
- Pacific Northwest

Board of Directors

- Dave Arguello
- Dan Ferguson
- Karla Fowler
- Steve Kebbe
- Tressa Nicholas
- John Poppe
- Kristina Westbrook

Goals and Action Items

Goals and Action Items 2014-2015

As of 05-17-14

Goal	Action Items	Status
Enhance visibility of the WaterReuse Pacific Northwest Section among water and wastewater professionals, utilities, organizations, and regulatory agencies	Co-sponsor and actively participate in the Idaho Water Reuse Conference (May 21-22, 2014)	Initial sponsorship paid; handout materials being designed
	Co-sponsor and actively participate in a pre-conference workshop for the PNCWA Conference (September 26-29, 2014)	Pending PNCWA's decision about the preconference (may not occur); will have display table and handouts/giveaways
	Participate in planning, hosting, and promoting the 2015 WaterReuse Symposium in Seattle (September 13-16, 2015)	Not yet begun
Establish the section as a recognized resource for water reuse information and training in the Pacific Northwest, including serving as a clearinghouse for information and pending actions	Plan and implement at least one educational program per year, including webinars related to water reuse in the Pacific Northwest	Researched webinar logistics; Identifying potential topics
	Expand website with information about water reuse in the Pacific Northwest	Text and photos compiled; Submitted to Association for posting
	Add case studies of reuse projects in each state to the website	Included in above
	Build data base of water reuse projects in the Pacific Northwest	In process
Provide proactive public and media communications related to water reuse programs and issues	Develop a Communications Guide	Not yet started
	Correct misinformation as identified	Ongoing
	Explain how regulations and rules are set up to be protective	To be built into various materials and presentations

As of 05-17-14

Work with regulators to address water reuse regulatory needs and pending water reuse related actions (i.e. rules, guidelines, permits, etc.)	Sponsor workshop sessions for regulators & encourage involvement of regulators	Sponsoring participation of regulators in Idaho Water Reuse Conference, May 2014
	Monitor Washington state rule development and provide input	To be initiated in 2014; not yet started
	Help regulators understand the state of the industry	Regulator participation in Idaho Conference will be initial opportunity
Support existing water reuse programs and encourage development of new ones in the Pacific Northwest	[Strategies to be determined]	
Expand WaterReuse Association and section membership in the Pacific Northwest	Add 3 new utility members	
	Add 5 new consultant members	Initial recruiting mailings sent in WA and OR; Letters included in Idaho Conference packets
Coordinate with peer professional organizations in the Pacific Northwest to collaboratively advance mutual goals and objectives	Develop a Memorandum of Understanding with PNCWA	Pending completion of a similar agreement between PNCWA and AWWA's regional chapter
	Develop a Memorandum of Understanding with AWWA PNW	Pending completion of an MOA with PNCWA

Member Benefits

- Information sharing, networking
- Webcasts on timely topics – free or reduced cost
- Research reports – reduced cost
- WateReuse Symposium and specialty conferences – notifications & reduced fees
- WateReuse website access
- National database of water reuse facilities – members only access

Pacific NW Section Benefits

- Website
- Webcast platform for regional webcasts
- Access to professional support/expertise
- Flexibility to address local/regional needs with support from the Association
- Coordination with other sections
- Advocacy support at the national level

Membership Categories

- **Agency/Water Supplier Members** — Public agencies, municipalities, privately owned utilities
- **Associate Members** — Consultants, suppliers, manufacturers, organizations, firms, and businesses
- **Affiliate Members** — Universities, schools, governmental departments/agencies
- **Industrial/Commercial Members** — Individual manufacturing/industrial facilities; Organizations whose primary business is other than water/wastewater related
- **Individual Members** — Employees of member organizations
- **Student Members** — Full-time college students
