

St. Maries Creosote Site

St. Maries, Idaho

Sandra Raskell, P.E.
Coeur d'Alene Tribe
Project Manager

Agenda

- History of the Site
- Discussion of Key People
- Sampling Program
- What's Next?

Site History

- 1939-1964 Wood Treating Pole Facility
- 1999
 - Sheen detected
 - EPA contacted
 - Site investigation begins
- 1999-2010 Clean-up process continues
- Feb 22, 2010 Consent Decree signed
- Feb 2010 Kick off meeting

Project Participants

 US Environmental Protection Agency

 Coeur d'Alene Tribe

 Carney Wood Products

 Arcadis

Sampling Program

- Feb 2010 – Kick off meeting Seattle
- Summer/Fall 2010 – Agency review of RDWP
- Winter 2010 – Arcadis conditionally approved to begin sediment sampling
- Feb 2011 – Sampling begins

Geotech Sampling

- West Coast Drilling
- Samples 60'-80'
- Restrictions
- Setbacks

Vibracore & Surface Grab Sampling

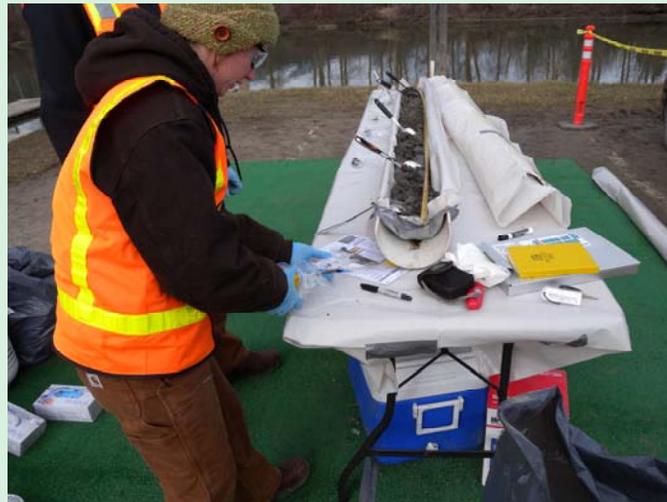

- Dixon Marine
- Method
- Site Conditions
- Site Restrictions

Sediment Core Field Sampling

- On-site Procedures
- Sheen, PID, Visual
- Shipping Preparation

What's Next?

- Data Analysis and Reporting
- Additional Sampling (if needed)
- Complete the Geotechnical Sampling
- Conduct Upland Sampling (Spring 2011)
- Pre-Design completion
