Subject: Comments on the Draft IPDES User's Guide (#2)

Follow Up Flag: Follow up
Flag Status: Completed

The Idaho AGC would like to submit the following comment regarding the User's Guide and the conversations about it at the DEQ meeting on April 14, 2020. Please let me know if you need anything else from us.

We believe the term "readily available electronic record" needs to be defines. Specially, the addition of "readily available" is open to wide interpretation.

Wayne L. Hammon, CEO
