

Action Items Identified during December 12, 2011 meeting

1. Locate the IDWR GIS layer that shows boundaries of drainage districts
2. Send link to Sand Hollow web page
3. Post water quality data and December meeting handouts to the web page
4. Recruit small acreage and/or horse farm representative
5. Invite Notus-Parma Highway District to participate
6. Connect with Lower Payette WAG since this is where some of the flow during irrigation season comes from
